To whom it may concern:

Orbis Cannabis has been a crucial part of our medical cannabis activity in Poland. Darek and Patricia done excellent work and guided us through the regulation in Poland. They arranged all the meeting with the relevant authorities (like the one who in charge of the medical cannabis importation). In addition, they know many people in the medical cannabis industry and their network of people in Poland is estimable and helped us a lot.

I know Darek and Patricia for almost 2 years. Every time I am speaking to one of them, I am getting all the answers for my questions. They are always patient and putting all their efforts to help you solve your problems. Darek and Patricia are reliable persons, people you can trust with your eyes closed when you are alone in a new country for first time business.

I am strongly recommended to anyone who thinks about cannabis in Poland to speak to them and I am sure you will have no regrets. Please do not hesitate to call me or email me if you would like to discuss this recommendation in further.

Sincerely,
